425 DX NEWS MAGAZINE ---> The February 2020 issue is now available for download at <http://www.425dxn.org/index.php>. [TNX IZ3EBA]

4U1UN ---> The 4U1UN re-activation project took over four years to complete. James Sarte, K2QI and Adrian Ciuperca, KO8SCA are the key operators who worked on the project, which is based on "a slick in-house remote concept": the station is located at the 42nd floor of the UN Headquarters in New York City, while the control head is located on the ground floor. They are the

recipients of the Yasme Excellence Award 2020, which Ria Jairam, N2RJ (Director, ARRL Hudson Division) and Martti Laine, OH2BH (Director, Yasme Foundation) will present to them at the UN Headquarters on 6 March. "This ceremony will be topped with the first-ever FT8 QSO from 4U1UN - with its inventor Joe Taylor, K1JT at the controls. First twenty-five QSOs will be awarded by U.N special certificate signed by Joe". Following the ceremony the group of K2QI, G6CBR, N2RJ, OH2BH, KO8SCA and VE7NY will activate 4U1UN in the ARRL DX SSB Contest. QSL via HB9BOU and LoTW. [TNX OH2BH]

ARRL INTERNATIONAL DX CONTEST (SSB) ---> Object of the contest is for W/VE amateurs to work as many stations in as many DXCC Entities as possible on 160, 80, 40, 20, 15, and 10 metre bands, while DX stations (also including KH6, KL7, CY9 and CY0) work as many W/VE amateurs in as many of the 48 contiguous states and provinces as possible (complete rules can be found at <http://www.arrl.org/arrl-dx>). This year's event will be held on 7-8 March (00.00-23.59 UTC). Give a look at the Announced Operations listing maintained by Bill, NG3K: <https://www.ng3k.com/Misc/adxs2020.html> - good contest to you all!

CASS AWARDS ---> The Cass Awards honour the wisdom and spirit of Cass WA6AUD (SK), and encourage DXpeditions to maximize the number of DXers worked with a Plaque for the single-operator DXpedition that works the most unique call-signs within 2 weeks or less, and a Plaque for the "unlimited" DXpedition that works the most unique callsigns.

Janusz Wegrzyn, SP9FIH has won (for the third year in a row) the 2019 Single-Operator Cass Award, this time by working 7518 unique stations during his one-man DXpedition to Palestine as E44WE.

The 5K0K team (Petr Bohacek OK1BOA, Petr Spacil OK1FCJ, Pavol Halek OK1CRM, Pavel Novak OK1GK, Ruda Sedlak OK2ZA, Ludek Odehnal OK2ZC, Karel Odehnal OK2ZI, David Beran OK6DJ and Rob Rey HK3CW) worked 20,744 unique stations from San Andres Island, winning the 2019 Unlimited Cass Award and setting a new record for this award category.

Presented annually, the Cass Awards are issued in March for DXpeditions during the preceding year. See <http://www.cassaward.com/> for complete information.

HAMVENTION AWARDS ---> Dayton Hamvention has named his year's award winners (see <https://hamvention.org/event-details/awards/> for the complete announcement). Yasuo "Zorro" Miyazawa (JH1AJT) is the recipient of the Amateur of the Year Award, which honours a radio amateur who "has made a long-term commitment to the advancement to amateur radio".

The Technical Achievement Award goes to Steve Franke (K9AN), Bill Somerville (G4WJS) and Joe Taylor (K1JT) for their development of the WSJT-X digital software suite, in particular the digital protocols FT8 and FT4. FT8 was introduced in July 2017, soon accounting for a large fraction of all amateur radio activity on the HF bands. FT4 is a closely related mode designed especially for digital contesting.

The Special Achievement Award is "usually given to a amateur who spearheaded a single significant project" and "made an outstanding contribution to the advancement of the radio art and/or science". The 2020 award winner is Jordan Sherer (KN4CRD) for developing JS8Call, an open source and free piece of software, inspired by WSJT-X and FLdigi, that provides weak signal keyboard-to-keyboard messaging to amateur operators.

Finally, the South Canadian Amateur Radio Society (SCARS), an ARRL Special Services Club based in the Oklahoma area, is the Club of the Year.

VP8PJ ---> Battling blowing snow and heavy winds that repeatedly damaged several of the verticals, on 5 March the VP8PJ team was approaching 70,000 QSOs in the log. They remained active on the bands throughout Thursday, and went QRT at 1 UTC on 6 March. Plans are to depart Signy Island on 7 March, and to attempt an upload of the log once aboard the "Braveheart". A successful upload is highly dependent on the weather and the position of the ship at that given time relative to the satellite.

QSL GALLERY ---> The large collection of QSL cards on Les Nouvelles DX's website has been updated. Sixteen different galleries include 17,683 cards for the ten Most Wanted DXCC Entities (2010-19), the 62 deleted DXCC Entities, obsolete prefixes, stations from Maghreb from 1945 to 1962, Allied Forces stations in Germany (1945-70), special stations commemorating ITU and IARU, stations using the United Nations prefix (4U), Antarctic bases and TAAF (Terres Australes and Antarctiques Francaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1969), pre-1945 countries, French Departments and CONUS, plus a gallery for cards not accepted by DXCC.
